### Application for junior web developer

{JOB TITLE/ POSITION NUMBER}

Letter to:

{Company name}

{Department}

{Street, Zip, City}

Dear {Hiring Manager's Name or Hiring Team},

I am writing to express my interest in the Junior Web Developer position at {Company Name}. Currently, I am a web development student at the Digital Career Institute (DCI) in Berlin, where I'm focused on building a strong foundation in front-end development. I believe that my background in practical software engineering, combined with my recent skills in web technologies, would allow me to make a positive contribution to your team.

At DCI, I have been working with HTML, CSS, JavaScript, and React, gaining practical experience through projects and exercises. These projects have helped me understand the essentials of creating responsive layouts, managing components, and using Git for version control—all skills I am eager to bring to a real-world development team. I have also enjoyed learning to use Visual Studio Code and collaborating with classmates on small team projects, which has taught me about version control and best practices in a supportive, learning-focused environment.

In 2017, I graduated with a diploma in Practical Engineering in Programming from the Technion – Israel Institute of Technology in Haifa. During my studies at the Technion, I learned several programming languages such as C, C#, PHP and Java, worked with databases, studied computer hardware and operating systems, and gained experience working in teams on various projects.

While studying, I also worked as a salesperson in several electronics shops, specializing in computers, cellular devices, and other electronic goods. This experience helped me build strong customer support skills, understand the importance of customer satisfaction, and learn to work with software such as SAP and CRM.

{Specific job}

Thank you for considering my application. I look forward to the opportunity to discuss how I can be a valuable addition to your team.

Warm regards,

*Kathrin Peled*
